

Technical Bulletin.

Modified Hand Brake Lever - Brake Shoes

The hand brake lever on certain brake shoes have been modified to overcome certain fitting issues.

The photos below show how the brake cable should be fitted to the new lever design.

1. Cable is inserted into lever end as shown here.

2. The outer spring sleeve is placed as shown and then the lever is crimped as shown to complete the assembly.

Part Numbers affected:

SHU540	SHU551	SHU560	SHU574	SHU623	SHU624	SHU642
SHU661	SHU667	SHU735	SHU768	SHU786	SHU787
