

Technical Bulletin.

Jaguar XF & XJ rear brake pad and wear sensor. Correct Fitment of WIR5243 to PAD1448.

To correctly fit the wear sensor, first remove the pad spring fitting from the top of the pad using a suitable tool.

Insert the wear sensor into the spring.

Insert the spring and wear sensor back it to the pad using a suitable tool.

Pay special attention, not to apply force on top of the plastic sensor housing during this step to avoid damaging the sensor housing.
